

To whom it may concern,  
I am appalled that at a time like this our government can find the patience, money and effort to cater to the qualms of a private interest group like the NAB. Petition 04-160 is unfair, unconstitutional and wrought with the stench of greedy shortsighted self-serving political campaign funding black mail. Laws and Petitions are not made to cater to the whims of big business. They are made to aid and govern the people and I fail to see how this petition will benefit anyone but the NAB and its associates.

How can our country supposedly be the beacon of freedom when we are constantly abusing the rights of our own citizens? There are far worse issues to be addressed but like most things in this great country of ours money matters and it appears that the NAB has the back pocket of a number of bigoted freedom limiting politicians. Well, God Bless America. Hear this you misguided bureaucrats: Let this petition pass and see how fast your constituents change the station on you.

T.
